3 - Real Time Chat (44 ☆ on GitHub)

Admin-user-chatting is an open source project that allows administrators to chat with their users. They can send photos and videos too. it's open source on github (44 stars on GitHub). https://github.com/hbakouane/admin-user-chatting Technologies: Laravel & Livewire

Demo on YouTube: https://www.youtube.com/watch?v=cTfSEcbLh1Y

4 - Laravel Cashier Stripe Connect (A package with 44 ☆ on GitHub)

I've officially contributed to this is a package that allows a marketplace to take its cut from a sale and transfer the remaining amount to the vendor, It uses Stripe Connect and Laravel Cashier.

Example

```
// Get user. This user has added the Billable trait and implements StripeAccount.
$user = User::query()->find(1);

// Transfer 10 USD to the user.
$user->transferToStripeAccount(1000);

// Payout 5 dollars to the user's bank account, which will arrive in 1 week.
$user->payoutStripeAccount(500, Date::now()->addWeek());
```
